

Mrs. Youngwife—"Charley's covered the table-cloth with fruit and coffee stains; it's my very best cloth, and because I spoke of it at breakfast, he slammed the door and he—he didn't kiss me goodby."

Anty Drudge—"Never mind, dearie, don't cry. Get a cake of Fels-Naptha Soap. It'll take every stain away with a little cool or lukewarm water."

The right way to clean clothes is to wash them with Fels-Naptha Soap in cool or lukewarm water. No boiling or hard rubbing to weaken the fabric. Fels-Naptha won't harm the most delicate fabrics.

Just wet the clothes, soap with Fels-Naptha, roll and soak for a few minutes in cool or lukewarm water. Rub lightly, rinse and hang on the line. Easy, isn't it? And the clothes will be clean, too.

Follow directions on the Red and Green Wrapper.

GREENBRIER.

Death visited the home of Mr. Jerry Barnes, of Flat Branch on July 21st, and took from him his loving companion. Funeral service was conducted by Revs. P. H. Wilson and G. W. Ferguson and was largely attended. She was laid to rest in the Finley Thompson graveyard, near Genoa.

Church at this place every first Sunday and Saturday night before, Rev. Carnie Crabtree pastor. Also Sunday School and singing every Sunday.

School will begin at this place the first Monday in August with Hakey Webb teacher. We need a graded school at the head of Greenbrier. We have the number of scholars that is required by law. Think the Board of Education should look after our interest in that respect. We think there should be more graded schools over our county. Then we could better prepare for high schools. The high school is all right but it is like building a house and have not material to furnish it. If we had had graded schools we would have had material to furnish high school, but as we have not had them and by the vote of the people of Butler district they have the cart before the horse. Now let the Board of Education use all power to hitch the horse in the proper place.

Mrs. Emily J. J. Watts and Mrs. Emma Dean have returned from a visit at Buffalo creek.

PARCELS POST REDUCTION.

Plans for the extension, improvement and reduction in rates of the parcel post have been announced by Postmaster-General Burleson. The changes, which are to become effective August 15, include an increase from eleven pounds to twenty pounds in the maximum weight of parcels, a material reduction in the postal rates in the first and second zones, and the abandonment of the parcel post map as a means of computing rates and the substitution for it of a rate chart individualized to every postoffice in the United States. The plans contemplate the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.

While for the present the maximum weight limit of twenty pounds and the reduction in rates will apply only to the first and second zones from any given postoffice—a distance of about 150 miles—the changes directed constitute the first long step towards a universal extension of the system and a general reduction in the rates of postage on parcel matter.

FRUITS COULD BE KENTUCKY GROWN

\$17,000,000 Spent Outside State Each Year.

SHOULD GROW THEM HERE.

Schools Are Striving to Help Solve Problems That Will Confront Our Children—Useless to Talk to Older Farmers—Boys' Corn Clubs Point Way to Success.

It is estimated that there are 9,000,000 apple trees of bearing age in Kentucky at the present writing. Our annual crop from these trees is something like 3,000,000 bushels of inferior quality. We spend \$17,000,000 for fruits of all kinds that could be grown in Kentucky.

It is useless to talk to many of the older farmers, for they will tell you:

ROOT GRAFTING.

"Oh, yes; when I was a boy you could raise all the fruit you wanted to. But now—well, I reckon it's just run out."

It must be the new generation with which we deal if we are to save this annual expenditure of \$17,000,000 some time in the future. We cannot go out to every farmhouse in the state and have a chat with the farmer and his boys and girls, so we must find a way to teach them easily and effectively.

The Boys' Corn clubs point the way to success. They have been made possible by the co-operation of teachers everywhere in the country, and the same is possible in fruit culture. At one of our normal schools numbers of the young people who are training for teachers are getting ready for this new crusade.

Almost any afternoon this spring in the basement of one of the big buildings, tables littered with roots of young apple trees, twigs from standard varieties, thread, wired tags and knives might have been seen.

As rapidly as deft fingers cut roots and twigs to fit snug, they were wound with thread and placed in small bundles. These bundles of ten, fifteen or twenty-five tiny trees were then sent to the country by parcel post. These trees were to be planted in the home gardens of the pupil teachers and carefully cultivated for a year before being set out permanently.

That the interest in this real vital work of education is growing is shown by the fact that the number of trees

TWENTY-FIVE JONATHANS READY TO SEND OUT.

mailed to the homes of the students this spring will be about five times as great as it was two years ago.

The first year the work was inaugurated 4,000 trees were grafted, last year 8,000 and this year about 20,000 will go on their mission of education.

With such work being done by teachers here and there over the state the children are sure to see a new vision of Kentucky as a fruit state.
